

The real tragedy is Troy's injuries could have been prevented.

**MISSION:
ZERO**

There's no such thing as an accident. Every one of the 40,000 work-related injuries that was reported in Saskatchewan last year was predictable and preventable.

It's up to every employer and every worker to help us eliminate workplace injuries and achieve Mission Zero.

Zero injuries. Zero fatalities. Zero suffering.

WorkSafeTM
SASKATCHEWAN

Work to live.
